

Advising organizations to transform and to maximize value

Aurynion is a strategy and transformation consulting and advisory firm specializing in supporting organizations and their teams in adapting their operations. Our engagements are spanning from developing a strategic approach to agile execution, with a consistent focus on achieving breakthroughs. We work side-by-side with senior executives, teams, and advisors to build up sustainable value. We engage with organizations to solve unique challenges that they face by going an "extra mile" to make each project successful.

BUSINESS TRANSFORMATION MANAGEMENT AND ADVISORY SERVICES

We partner with companies to evolve their business projects by combining innovative approaches, change capabilities, collaborative working style, and team engagement and by involving relevant stakeholders in project direction, progress, and outcomes.

**Program
Management**

We adopt innovative project and program management methods, promote a hands-on approach to complex initiatives, and strive to maximize business value while reducing operational risks.

**Operational
Excellence**

We help organizations unlock value opportunities by identifying technological gaps, enhancing organizational capabilities, and adopting sustainable business practices.

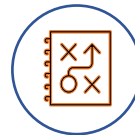

**Digital
Transformation**

We help organizations adapt their digital strategy and turn it into the essence of their business strategy as they increase their willingness to innovate processes and systems.

**Shared Services and
Vendor Management**

We collaborate with our clients to enhance the performance of their existing Shared Services environments and elevate capabilities in supporting the vendor management process for greater business value.

**Business Strategy
and Innovation**

We actively facilitate Business Transformation, support the Strategic Planning Process, and advance the Innovation Stage-Gate framework to ensure ideas evolve into measurable and impactful outcomes.

OUR AREAS OF EXPERTISE SUPPORT ORGANIZATIONS TO TRANSFORM

Project Leadership

We boost cooperation and clear communication with all team members while coordinating multiple project streams and tasks.

Execution and value mind

We work hands-on with organizational teams to achieve sustainable and value-oriented outcomes through effective processes and project execution.

Complex Problem Solving

We support our clients to achieve active problem-solving through solid critical thinking practices, to comprehend a problem from different angles, and to develop creative solutions.

Managing Change

We partner with our clients to identify and to engage with key stakeholders throughout the organization and to coordinate a balanced distribution of change responsibility.

OUR CORE VALUES

| Courage | Integrity | Trust | Prudence |
|---|---|---|---|
| Stepping up to new challenges by taking considerable and manageable risks | Being consistent and respectful in our interactions with our partners and clients | Approaching challenges as a team together with partners that follow a similar vision and values | Taking long-term decisions considering risks and rewards for sound and sustainable outcomes |

OUR TEAM

Our seasoned team of professionals has experience in several industries, including Life Science, Health Care, Pharmaceutical and Biotech, Insurance, Financial Services, B2B Services, and Technology. Our diverse set of skills in project and change management allows our team to handle critical client engagements and facilitate rollout plans that are realistic and achievable.

HOW WE SUPPORT ORGANIZATIONS

We follow three basic principles of how we want to work with our clients:

Aim for value
focusing on execution

Collaborate respectfully and
as a true business partner

Achieve sustainable
deliverables and results
